Product Range

Material:

- Different grade of Stainless Steel:SUS302-SUS420
- Brass/Bronze/Cooper
- Aluminum Alloy 6061/7076
- Caron Steel:c1006-c1045
- Alloy Steel:SCM435 grade 8.8, grade 10.9 grade 12.9.
- Special Alloy Steel: SUJ2

Surface Treatment:

- Zinc Alloy Plating
- Phosphate treatment
- Black Oxide
- Anodization
- Locking coat/
- PVC plastic coated
- Baked painting.
- Magni coating
- Geomet coating

Resources

At HW Fasteners our most important resource is our people. As well as the extended Li family working full time there are a further full time technicians employed giving HW Fasteners a total of 30 staff.

In 2016 founder Mr. Li started construction of the new HW Fasteners factory; now HW consists of 3000 square metres of dedicated buildings.

This includes 1200sqm of warehousing and packaging, 100sqm of administration and office space, and 1700sqm of manufacturing floor space.

HW Fasteners also boasts a new ERP computing system from Digiwin-Software allowing for a more rigorous control on incoming and outgoing goods and work in progress.

**H.W. FASTENERS
INDUSTRY LTD**

Resources

Our machines for manufacturing include some new 2018 multi staged cold forging machines which can produce a fastener with 5 different processes all from the same machine.

Heading machine	11
Multi-stage cold forging machine	03
Thread rolling machine	10
Bench lathe	03
High speed lathe	01
Head-punch machine	02

INDUSTRY LTD**

Quality
Control is our
business

Quality control is recorded at several stages throughout manufacture, initially when setting up the machines to make a new product and ensure the machine is making a fastener that complies to all specified tolerances, many samples are completely analyzed for conformity. If the fastener is small and complex then checking is carried out using laser measuring. Sampling per thousand or million is carried out as per the order requirements, secondary checking is done 1-2 times daily at each machine, and again at the packing stage. A new ERP computer system and coding of all products incoming, manufacturing and warehousing ensures we keep track and traceability on each stage of our process.

Ultimately we are responsible to partner with you so we can understand your requirements and deliver you a fastener that meets your needs with a service that keeps your business or project efficient too.
